00:00:01	JP	Hi there, I'm looking into having closed captions added to my videos and wondered if you could help at all.
00:00:36	SC	Certainly. To get a price for you, I'll need some more information on your videos and the type of closed captions you need.
00:01:02	JP	Okay. Well, it's a documentary video and I need broadcast closed captions as it's going to air on television in a month or so. The channel says I need to provide the closed captions and encode them. I don't really know enough about the process to do this myself.
00:01:35	SC	Okay. So you need broadcast closed captions for a documentary. Do you have any idea on what format the broadcaster requires or any styling requirements?
00:02:00	JP	They gave me a style sheet with specifications on what needs to be included in the onscreen text. As to format, they said EBU STL and the video is 55 minutes long. Can you work with that?
00:02:45	SC	Yes. Those are very commonly used formats for closed captions for broadcast. We can get a quote sent over to you pretty soon. We will just need you to fill in our client registration form.
